

PRESS RELEASE

Code Blue GmbH: Officially recognized by the BSI as a qualified APT response service provider.

Frankfurt am Main, 22 November 2024 - Code Blue GmbH, a leading provider of cyber crisis management and incident response, is officially listed by the *Bundesamt für Sicherheit in der Informationstechnik* (BSI) as a qualified APT response service provider. *This means that the company belongs to a select group of specialists that meet the highest standards in combating and managing advanced persistent threats (APT).*

With this certification, Code Blue stands out as a trusted partner for critical infrastructure organizations and strengthens its position in the field of advanced cyber defence.

The listing is the result of a rigorous review process in which Code Blue was able to demonstrate its extensive expertise in malware analysis, forensics, crisis communication and IT system recovery. Organizations benefit from 24/7 operational readiness and the provision of incident response services by highly qualified in-house staff who handle APT incidents quickly and efficiently.

‘Inclusion in the list of qualified APT response service providers is an important milestone for Code Blue,’ says Christian Milde, CEO of Code Blue GmbH. ‘This certification not only confirms the quality of our services, but also our commitment to providing our customers with a secure and resilient IT environment.’

With this listing, Code Blue not only offers significant added value for critical infrastructure companies, but also for all organizations that want to arm themselves against increasingly complex threats in cyberspace and take their cyber defence readiness to a new level.
